

Calvary Caller Devotional

Friday, February 2, 2017

We are in the liturgical season of *Epiphany*. In the Western Church this is the celebration of the manifestation of Christ to the Gentiles (that's us!). The image of light dominates *Epiphany*—the *light* of the star, the *brightness* of the Incarnation, the *insight* that comes with understanding. But light is not just the opposite of dark. It is also the opposite of heavy. Lighting the world as children of God is more than bringing insight, understanding, and the vision of God's gift to all the world. It also involves lightening the weight of war, poverty, destruction, and division. And God said, "Let there be light!"
